DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 23rd July 1924.

Summary.—The rainfall was heavy in East and parts of North Bengal, and generally light to moderate elsewhere. The rise of rivers resulting in floods caused damage to the low land crops in parts of North and East Bengal; otherwise prospects are generally satisfactory. Transplantation of winter paddy seedlings is progressing favourably although more rain is needed in the West Bengal districts. Reaping of autumn paddy and cutting and steeping of jute are in brisk progress. The average price of common rice for the province has risen by about 1·57 per cent compared with that of the previous week.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Summer *Til* Crop of Bengal, 1924-25.

(NOTE.—On an average of the five years ending 1921-22, the area under *til* in Bengal has represented some 4·8 per cent. of the total area under *til* in British India.)

Character of the season.—The rainfall at the outset was somewhat insufficient for the preparatory tillage and the long spell of drought that followed from March to the middle of April retarded the germination and growth of the crop. From the latter part of April to the early part of May the rainfall was beneficial but extremely hot weather later on and excessive rain thereafter during the period of harvesting proved injurious in some Eastern districts. On the whole, the season has been an unfavourable one for the crop.

Acreage.—The total area sown this year with the crop is reported to be 107,400 acres as against 113,300 acres last year.

Outturn.—From the estimates furnished by the District Officers the average outturn of the crop for the province works out at 62 per cent. of the normal this year as against 65 per cent. last year. Taking the normal yield at 6½ maunds per acre, the gross outturn for the province is estimated at 15,000 tons this year as against 16,600 tons last year or a decrease of about 10 per cent.

Director of Agriculture, Bengal (offg.).

The Executive Officer shall scrutinise the applications and publish a list of all candidates in the same form at the cantonment office not less than fifteen days before the day fixed for election. In the nomination paper the candidate shall subscribe himself as assenting to his nomination. Before scrutinising the nomination papers the Executive Officer shall fix a date, place and hours for the purpose. He shall record his decision at the place assigned for the purpose in the form and his decision shall be final.

17. Any person who applied under rule 16 and whose name is not published in the list of candidates or who disputes the claim of any other candidate to be on the list published by the Executive Officer under rule 16 may apply to the District Magistrate or the officer authorised by him in this behalf in writing within two days of the date of publication of the list of candidates for an order to have his name included in or any name omitted from the list, and the District Magistrate or the officer authorised by him shall make such order, and the Executive Officer shall, upon receipt of a copy of such order which shall be delivered to him by the District Magistrate or the officer authorised by him not less than seven days before the date of election, give effect to the same, and such order shall be final.

V.—Manner of holding election.

18. The elections and casual elections shall be held on such dates as may be fixed by the Local Government and notified in the *Calcutta Gazette.*

19. In the event of the number of candidates for election in a cantonment or in any ward of it not being greater than the number of vacancies such candidates shall be deemed to be elected. If the number of candidates exceeds number of vacancies a poll shall be held.

20. The poll shall be held at such time and place as the Cantonment Authority may determine, and the place at which and the hours between which the votes will be recorded shall be notified by beat of drum, and by the publication of notices at the same time as the list of candidates is published under rule 16.

21. After the second hour mentioned in the notice referred to in rule 20 no elector shall be admitted within the building or enclosure within which the election proceedings are being held, but the votes of all duly enrolled electors who are already within the building or enclosure shall be recorded.

22. Every elector shall be entitled to vote for the ward in which he ordinarily resides, or in which he is assessed to pay the rates and for no other, and to give as many votes as there are vacancies for such ward, but he shall not give more than one vote to any one candidate.

23. The Cantonment Authority with the approval of the District Magistrate shall appoint a polling officer, who is not himself a candidate for election, to preside at the election at each polling centre. If the polling officer for any reason fail to attend, the Cantonment Authority with the approval of the District Magistrate shall appoint another fit and proper person, who is not himself a candidate for election, to take his place.

24. All votes shall be given in person and no votes shall be received by proxy or in writing.

25. On the morning of the election day the polling officer shall be supplied with a sealed ballot box provided with an aperture for receipt of voting papers, a copy of the electoral roll, and a bound book or books of voting papers serially numbered in foil and counterfoil, one voting paper for each voter entered in the roll.

26. The voting paper shall be printed in Bengali or English or both, in Form C annexed to these rules, and shall contain the names of all the candidates arranged alphabetically in the order of their surnames.

27. (*1*) On the day of the election the polling officer shall admit to the polling booth or room the candidates and such agents as may be selected by the candidates to assist in the identification of voters, provided that there shall be present at one time, in addition to the candidates, not more than one agent of each candidate.

(*2*) Besides candidates and their agents only voters and such persons (if any) as may be admissible under special directions given by the polling officer shall be admitted to the polling booth or room.

28. The candidates and their agents shall not speak to or address any intending voter in the polling booth or room, but may submit to the polling officer objections to a voter on the following three grounds :—

First.—That his name is not on the electoral roll of the ward in respect of which the election is being held.

Second.—That his claim to be a certain voter shown on the electoral roll is false.

Third.—That he has already voted.

29. The procedure for recording each voter's vote shall be as follows :—

(*i*) As each intending voter enters the polling booth or room, his name and his number in the electoral roll shall be called out so that everybody present can hear them.

(*ii*) No objection to a voter shall be entertained except on the grounds mentioned in rule 28.

(*iii*) Such objection shall be summarily decided by the polling officer, who may for this purpose obtain such evidence as may be available on the spot.

(*iv*) If after taking such evidence the polling officer is satisfied that the voter is entitled to vote, he shall hand him the foil of a voting paper and allow him to proceed to vote.

(*v*) The number of the voter in the electoral roll shall be marked on the counterfoil of the voting paper.

(*vi*) The voter on receiving the voting paper shall forthwith proceed to the place set apart for the purpose and there mark a cross against the name of the candidate or candidates for whom he intends to vote. He shall then fold the voting paper so as to conceal his vote and shall put the voting paper, so folded up, into the ballot box. He shall vote without undue delay, and shall quit the polling station as soon as he has put the voting paper into the ballot box.

(*vii*) If the voter is unable to read the voting paper, or to make a cross thereon, the polling officer shall mark the vote on the voting paper according to the direction of the voter. The voter shall then put the voting paper folded up into the ballot box.

30. Before the commencement of the poll the presiding officer shall show the ballot box empty to such persons as may be present in a polling station. On the conclusion of the poll the ballot box shall be opened and the votes counted in the presence of the candidates or their agents by the polling officer and the polling officer shall then and there declare the result of the election and report accordingly to the Executive Officer. He shall also seal up the book of counterfoils and unused foils of voting papers and make it over to the Commanding Officer, who shall keep it sealed in his own custody till it is destroyed under rule 35.

31. Any voting paper which is not duly marked or on which a cross (or mark) is placed in such a manner as to make it doubtful to which candidate it has been given or on which any mark is made by which the voter may afterwards be identified shall be invalid. A voter shall not sign the ballot paper.

32. If there be an equality of votes for the same vacancy, and if the number of vacancies does not admit of all the candidates who have obtained an equal number of votes being elected, the election of one of such candidates shall be made by lot to be drawn by the polling officer in such manner as he may determine.

33. In the event of any candidate being elected for more than one ward, he shall, within five days from the date of election, declare which ward he will represent; and if he fail to make such declaration, the Cantonment Authority shall forthwith declare the ward which such candidate shall represent, and in either case such candidate shall be held to be elected in the ward in respect of which either of such declaration has been made, and in every other ward in which the said candidate has been returned, the result of the election shall be determined as if no votes had been recorded for him, provided that if there is no other candidates for whom votes have been recorded to fill the vacancy thus caused, a fresh election shall be held.

34. When the voting papers have been scrutinized and counted they shall forthwith be replaced in the ballot box from which they were taken, and the box, after being locked and sealed with the cantonment seal, shall be kept by the Executive Officer in safe custody.

35. On the expiry of fifteen days from the date of declaration of the result of election, the voting papers in the ballot box and the sealed book containing unused voting papers and counterfoils in the Commanding Officer's custody shall be destroyed in the presence of such member of the Board or Officers as the members at a meeting may appoint for this purpose.

36. The list of duly returned candidates for the whole cantonment shall be forwarded by the Executive Officer to the District Magistrate, who will forward the same to the Local Government for publication in the *Calcutta Gazette*.

VI.—Disputes.

37. All disputes arising under these rules shall be decided by the Commanding Officer, and his decision shall be final. A breach of these rules renders a person liable to the penalty provided by section 268 of the Act. The offence of personation, of undue influence and of bribery at an election are punishable under sections 171E and 171F of the Indian Penal Code, 1860, as amended by the Indian Elections Offences and Inquiries Act, 1920 (XXXIX of 1920).

In the matter of Amulya Dhone Addy, (78, Chetla Road, Alipore) ... ... *Petitioner.*

4. N. C. Sircar, Vice-President, Bengal National Chamber of Commerce, Returning Officer (7, Swallow Lane, Calcutta) ... ... *Respondents.*

The humble petition of Amulya Dhone Addy, petitioner abovenamed.
Most respectfully sheweth :—

1. That your petitioner is a member of the Bengal National Chamber of Commerce, and he was and is qualified, and his name was and is duly registered as an elector on the electoral roll of the said Chamber for the Bengal Legislative Council of which the said Chamber is a Special constituency.

2. That at the last General Election Respondent No. 1* abovenamed, Mr. Byomkesh Chakravarti, and another person, Raja Reshee Case Law, were declared elected to the Bengal Legislative Council from the said constituency.

3. That your petitioner and Respondent No. 2, abovenamed, Mr. Murali Dhar Roy, were also candidates at the said General Election.

4. That on an election petition filed by your petitioner, the said election of Mr. Byomkesh Chakravarti was afterwards declared void (under notification No. 46244, of the Government of Bengal, Appointment Department, dated the 19th March 1924).

5. That by notification No. 5805A., dated the 28th April 1924, the said Bengal National Chamber of Commerce constituency was thereupon called upon to elect, on or before the 20th June 1924, a member to the said Council for the purpose of filling up the vacancy caused by the said election of Mr. Byomkesh Chakravarti having been set aside.

6. That the 12th May 1924 was fixed as the last date for submission of nominations, and the 13th May 1924, as the date for scrutiny of nominations, for the said by-election.

7. That Respondent No. 4 abovenamed, Mr. N. C. Sircar, Vice-President of the Bengal National Chamber of Commence, was the Returning Officer at the said bye-election, as well as at the last General Election from the said constituency.

8. That four candidates, namely, your petitioner and Respondents Nos. 1, 2 and 3 abovenamed, submitted nomination papers for the said by-election.

9. That of the said candidates, Respondents Nos. 1 and 3, Mr. Byomkesh Chakravarti and Mr. W. C. Banerjee, were not, however, eligible for nomination or election at all under the Electoral Rules and Regulations, on the ground, among others, that their names were not registered on the electoral rolls of the constituency, and that firms, companies or corporations were not "persons" and were not entitled to be registered as electors in the electoral rolls within the meaning of the said Rules and Regulations.

10 That at the scrutiny of nominations held on the said 13th May, 1924, your petitioner accordingly took objections to the eligibility of the said two candidates, and in support of his objections relied on the report of the Election Commissioner who had tried the petition presented by your petitioner against the previous election of the said Mr. Byomkesh Chakravarti.

11. That the self-same grounds on which the said Commissioners had declared the said election of Mr. Byomkesh Chakravarti void were still in force, the present bye-election having in fact proceeded on the same electoral roll on which the last election had been held.

12. That your petitioner also took other objections to the validity of the nomination papers filed by the said Mr. Byomkesh Chakravarti and Mr. W. C. Banerjee.

13. That the Returning Officer, however, acting perversely and capriciously, as your petitioner submits, illegally over ruled the said objections, and in the result accepted the nominations of all the four candidates.

14. That the Returning Officer thereafter also illegally issued ballot papers to firms, companies and corporations, though firms, companies and corporations were not (and had been held not to be) "Electors" at all under the Electoral Rules and Regulations.

15. That at the counting and scrutiny of votes held on the 3rd June 1924, your petitioner renewed his objections to the eligibility for nomination and election of the said Mr. Byomkesh Chakravarti, but the Returning Officer took no notice of the same.

16. That your petitioner also objected to the reception of the votes which had been received from firms, companies and corporations, and the Returning Officer, though inclined at first to overrule the said objection, was eventually constrained to give effect to the same, on being pressed by the orders of the Government of Bengal, conveying His Excellency the Governor's interpretation on certain questions referred to him for decision (as conveyed by the Chief Secretary's letter No. 228A.—D., Appointment Department, dated Darjeeling, the 26th May 1924, to the Returning Officer).

17. That the Returning Officer declared the result of the counting of votes as follows :—

Mr. Byomkesh Chakravarti (Respondent No. 1)	...	26 valid votes.
Mr. Murali Dhar Roy (Respondent No. 2)	...	15 ditto;
Mr. Amulya Dhone Addy (Petitioner) ...	...	15 ditto;
Mr. W. C. Banerjee (Respondent No. 3) ...	...	*Nil* ;

and thereupon declared the said Mr. Byomkesh Chakravarti duly elected as having obtained the majority of votes.

18. That your petitioner submits that at the said counting, barring votes of firms, companies and corporations, the Returning Officer rejected a number of votes as invalid which were really valid and ought to have been counted, and if counted, would have increased the total poll of your petitioner to 19 votes at least.

19. That among others your petitioner begs to refer to the following instances of improper rejection of votes :—

1. The ballot paper of Mr. Tribhuvan Heerachand (Elector No. 177) rejected on the ground that he had signed it as "Heerachand Tribhuvan" (his actual name), instead of as *Heerachand Tribhuvan* as the name is printed in the Electoral Roll, though there was and could be no question as to the identity of the voter.
2. The ballot paper of Mr. Chetty, K. V. R. M. Ramanathan (Elector No. 39) rejected, merely because the elector's name appeared in the roll with "Messrs." prefixed thereto, though as a matter of fact the voter was and was known to be an individual, and not a firm.
3. A ballot paper with two crosses on it, one against your petitioner and one against Mr. B. Chakravarti, though Mr. Chakravarti's agent who was present there declared that the voter in question had been induced to put the second cross against Mr. Chakravarti's name on the false representation that there were two vacancies (as at the last General Election) instead of one (as was really the case at the bye-election).
4. The ballot paper of Mr. Protap Chandra Ganguli (Elector No. 64) rejected as he had inadvertently omitted to sign the ballot paper, though his name appeared on the cover enclosing the same, and there was and could be no question as to the authenticity of the paper or the identity of the voter.

20. That in the premises aforesaid your petitioner submits that Mr. B. Chakravarti's nomination was invalid and illegal, and the votes recorded in his favour were consequently all void and ought to have been rejected, and that the Returning Officer ought to have held and declared that your petitioner had obtained a majority of lawful votes at the said bye-election, and the said Returning Officer should thereupon have declared your petitioner as the duly elected candidate.

21. That under the aforesaid circumstances your petitioner submits and charges that the result of the said bye-election has been materially affected by the improper acceptance of nominations, the improper acceptance and refusal of votes, and the improper reception of votes which were void, and otherwise by non-compliance with the provisions of the Act and the Rules and Regulations thereunder and by mistakes in the use of forms.

22. That your petitioner further charges that the said Respondent No 1 by himself *or* and by his agent or agents was guilty of corrupt practice, by falsely representing to a voter or voters that there were two vacancies to be filled, and thus inducing the said voter or voters who had already marked his or their ballot paper or papers in favour of your petitioner or any other candidate, to put a second cross against the name of the said respondent, with the deliberate object of thereby spoiling the said paper or papers altogether.

23. That your petitioner further charges that the Respondent No. 4, the said Returning Officer Mr. N. C. Sircar, has by his perverse and capricious action, as hereinbefore set out, involved your petitioner in unnecessary trouble and expense, and your petitioner is entitled to and claims to be compensated for the same.

24. That your petitioner has duly submitted his return of election expenses under the rules.

25. That your petitioner begs to deposit herewith the sum of rupees one thousand only as security for costs as required by the rules.

26. That the name of the said Respondent No. 1, Mr. Byomkesh Chakravarti, was published in the *Calcutta Gazette* of June 11, 1924, as having been duly elected at the said bye-election.

27. That your petitioner submits that for a proper trial of this petition, it will be necessary to have a scrutiny of the rejected ballot papers, in order to determine if and how far the same were rightly rejected.

Your petitioner accordingly begs to file this election petition under Part VII of the Bengal Electoral Rules, and prays that the same may be inquired into and tried, and that thereupon the said election of the said Respondent No 1, Mr. Byomkesh Chakravarti, be set aside, and your petitioner be declared as the duly elected candidate in his place, and that failing that, the whole bye-election be set aside and a fresh bye-election ordered to be held, and that your petitioner be awarded the costs of this petition from the said Respondent No. 1 or from the said Respondent No. 4, or from both, or for such other or further orders as may be deemed fit and proper.

And your petitioner as in duty bound shall ever pray,

AMULYA DHONE ADDY.

Verification.

I, Amulya Dhone Addy, son of Babu Adhar Chandra Addy deceased of 78, Chetla Road, Alipore, do hereby verify that the statements contained in the foregoing petition are true to my knowledge except those in paragraph 22 which are true to my information and belief. Signed this verification at the High Court, Calcutta, on the 9th day of July 1924.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Cotton Crops of Bengal, 1924-25.

(NOTE.—On an average of the five years ending 1922-23, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

THERE are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tippera State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—In the Chittagong Hill Tracts and in the Tripura State wet weather prevailed from the middle of April to the middle of May. Since then, dry weather up till the middle of June enabled the crop to recover while the conditions elsewhere generally were unfavourable owing to extremely high temperature. The present condition, however, is reported to be fair on the whole.

Area sown.—The area sown with the early crop is reported to be 75,348 acres this year against 68,803 acres reported in the corresponding forecast of last year.

Of the late crop, an area of 857 acres is reported to have been sown this year against 937 acres reported in the corresponding forecast of last year.

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Sugarcane crop of Bengal, 1924-25.

(NOTE.—On an average of the five years ending 1922-23, the area under sugarcane in Bengal has represented some 7·7 per cent. of the total area under sugarcane in British India.)

Character of the season.—The weather was generally unfavourable at the time of planting owing to drought; and this, combined with high temperature during the end of May and beginning of June, interfered with the growth. Since the break of the monsoon, conditions have improved and the present outlook is promising on the whole.

Area planted.—The total area planted with sugarcane for the Province is reported to be 203,500 acres this year against 208,100 and 201,900 acres now revised reported, respectively, in the corresponding and final forecasts of last year.

RESOLUTION ON THE REPORT ON THE WORKING OF THE ASANSOL MINES BOARD OF HEALTH FOR THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Public Health.

CALCUTTA, THE 23RD AUGUST 1924.

RESOLUTION—No. 1853P.H.

Minister in charge : The Hon'ble Hadji Mr. Abdul Karim Abu Ahmed Khan Ghuznavi.

READ—

The report on the working of the Asansol Mines Board of Health for the year 1923-24.

The constitution and personnel of the Board remained unchanged, except for two casual vacancies which had not been filled up by the end of the year.

Twelve ordinary and six special meetings of the Board were held during the year.

2. The total income of the Board, including an opening balance of Rs. 76,261, amounted to Rs. 1,68,412 during the year. The receipts from cess fell from Rs. 93,492 in 1922-23 to Rs. 84,775 during the year, of which Rs. 71,126 was collected from mine-owners and Rs. 13,649 from recoveries of royalties. The miscellaneous receipts, however, increased to Rs. 7,376. The total expenditure amounted to Rs. 1,46,850, leaving a closing balance of Rs. 21,563.

3. The year was an exceptionally healthy one, and there was no serious outbreak of any epidemic disease. The incidence of malaria was low, but the Minister is glad to observe that the sales of quinine exceeded those of the previous year and no case of plague, influenza or epidemic dropsy was reported throughout the year. There were altogether 381 cases of cholera with 199 deaths, against 332 cases with 173 deaths in the previous year. The Chief Sanitary Officer has made an extensive test of the Essential Oils Mixture for the prevention and cure of this disease and is of opinion that "in it we possess a certain prophylactic against cholera as well as an almost infallible remedy for the disease itself if administered in proper time, that is to say before collapse sets in from loss of fluid." There was a slight increase in small-pox cases which numbered 50 with 6 deaths, against 26 cases with no death in the preceding year. Vaccination and re-vaccination were performed in 23,533 cases against 19,923 in 1922-23.

The birth-rate declined from 28·2 per mille to 26·28, while there was a satisfactory decline in the death-rate, which was 17·90 against 18·49 per mille in the preceding year. The total number of births recorded during the year was 8,655 against 9,303 in 1922-23, while the number of recorded deaths fell from 6,091 to 5,[illegible]97. It has been suggested that the low recorded birth-rate may to some extent be due to negligence in reporting births. It is however satisfactory to note that steps have been taken by the Board to impress on the public, through the agency of their inspecting staff, the importance of an accurate record of vital statistics for the purposes of public health administration.

The rate of infantile mortality for the year was somewhat higher than that of the previous year, being 150 against 146 per thousand of births registered during the preceding year, but it still continues to compare favourably with the provincial rate.

4. The sanitary administration of the mining settlement was conducted by the Board with the same degree of efficiency as last year, and attention continued to be paid to such special measures as anti-malarial investigations, inspection of school children and delivery of weekly lectures by the Sanitary Assistants in primary schools on hygiene and public health, while special house to house lectures were given by the Board's midwives to the women of the settlement on the general principles of cleanliness and domestic hygiene. The Minister for Local Self-Government desires once more to congratulate the Board on the high standard of their administration, and on the efficient and business-like manner in which their officers and staff performed their duties.

By order of the Government of Bengal
(Ministry of Local Self-Government),

S. W. GOODE,

Secretary to the Government of Bengal.

CALCUTTA CUSTOM HOUSE, *the 23rd August 1924.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for July, 1924.

I. **Character of the season.**—During the month under report the rainfall was markedly in excess of the normal in Eastern and Northern Bengal; elsewhere it was slightly above the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Transplantation of winter paddy was progressing favourably although more rain was needed in the Western Bengal and Presidency districts. High and rising rivers have hastened cutting and steeping of jute and harvesting of autumn paddy in the low-land tracts of Eastern and Northern Bengal. Elsewhere the operations were proceeding normally.

III. **State of standing crops.**—Except in the flooded tracts the condition of standing crops was reported to be fairly satisfactory on the whole. Want of rain was still felt in Western Bengal and in the Presidency Division.

IV. **Prospects and probable outturns.**—Due to high flood in rivers, deep-water and ripe autumn paddy in certain low-land tracts of Eastern and Northern Bengal was submerged. A fair outturn is anticipated except in the flooded tracts where their prospects are reported to be poor.

V. **Damage to standing crops.**—Sudden rise of rivers was reported to have caused damage to the standing crops in certain low-land tracts of Eastern and Northern Bengal.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Stray cases of cattle disease were, however, reported from 14 districts.

VII. **Failure of pasturage and fodder.**—No scarcity of fodder and water was reported from any part of the province.

VIII. **Prices of food-grains.**—During the second fortnight of the month the price of common rice of the cheapest quality fell in two districts, rose in nineteen and remained stationary in the rest of the province. The price ranged from 5 seers and 6 chittaks per rupee at Rangpur to 8 seers per rupee at Jessore.

IX. **Condition of agricultural population.**—The condition of agricultural population was reported to be fair on the whole.

APPOINTMENT DEPARTMENT.

COMMUNIQUÉ.

Calcutta, the 26th August 1924.

The Governor in Council has heard with deep regret of the death on the 24th August 1924, at the Presidency General Hospital, Calcutta, of Mr. Frank Roddis of the Indian (Imperial) Police Service.

Mr. Roddis was born on the 10th January 1877, and joined the Indian Police in the year 1897. Whilst a comparatively junior officer he was placed in charge of a heavy criminal district and was commended several times for his successful administration. Subsequently he did excellent work as Superintendent of the Assam-Bengal Railway Police. In 1912, he acted for a short period as Personal Assistant to the Inspector-General of Police, Eastern-Bengal and Assam, and was subsequently appointed to the charge of the East Indian Railway Police, where he maintained most friendly relations with the Railway Authorities. He was for over three years in charge of the political branch of the Criminal Investigation Department, Eastern-Bengal and Assam, and was appointed Personal Assistant to the Inspector-General of Police, Bengal, in 1913, in which capacity his work for more than five years was of a very high order. He was awarded the King's Police Medal in 1920; subsequently he served as Deputy Inspector-General of Police, Criminal Investigation Department, as Commissioner of Police, Calcutta, and as Deputy Inspector-General of Police, Presidency and Dacca Ranges. He was a most zealous and indefatigable worker, and his service throughout was distinguished by exceptional ability and merit. The Governor in Council desires to record his appreciation of the services rendered by the late Mr. Roddis to the State.

(4) to provide for the enlistment of men into the air force reserve as special reservists with a liability to serve within the limits of the British Islands only.

Power to make supplemental modifications

4. REPORT OF THE COMMITTEE APPOINTED TO CONSIDER THE MEASURES WHICH SHOULD BE TAKEN TO CONDUCT AND CONTROL THE WORK OF THE HYDRO-ELECTRIC SURVEY IN BENGAL.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

No. 23I.—The 27th August 1924.—The following report of the Committee, appointed in pursuance of Government Resolution No. 2*I*., dated the 12th November 1921 (published at pages 2255-56 of the Supplement to the *Calcutta Gazette* of the 16th November 1921) to consider the measures to be taken to conduct and control the work of the hydro-electric survey in Bengal, is published for general information.

C. ADDAMS WILLIAMS,

Secretary to the Government of Bengal.

REPORT OF THE COMMITTEE

appointed to consider the measures which should be taken to conduct and control the work of the hydro-electric survey in Bengal.

In Bengal Government Resolution No. 21., dated the 12th November 1921, the Government of Bengal appointed a Joint Committee comprised of members of the Public Works Department and the Department of Industries to consider what measures should be taken to conduct and control the work of the hydro-electric survey in Bengal. The Committee consisted of the following members:—

President.

The Chief Engineer, Irrigation Department.

Members.

The Director of Industries, Bengal.

The Electrical Adviser and Electric Inspector, Bengal and Assam.

The Committee was directed in the first instance to confine their attention to the Hill Tippera area round Comilla and Chittagong.

The Committee since their appointment in November 1921 have held three meetings, *viz.*, one on 8th July 1922, another on the 29th August 1923, and the third and final meeting on the 1st March 1924. The deliberations of the Committee were chiefly confined to the consideration of the information supplied by Mr. C. Grieve, temporary Engineer, who was specially appointed for the purpose of making the local investigations. At the first meeting of the Committee it was decided that surveys should be made to collect data in respect of the quantity of water available for power purposes in the Karnafuli river. Mr. Grieve commenced operations immediately after his appointment on 15th November 1922, but the survey proper did not commence until the end of January 1923. Mr. Grieve submitted two reports, together with ten photographs of the Barkal rapids and other drawings to illustrate his reports.

In his first report Mr. Grieve gave a description of the Karnafuli river and local conditions and stated that the total length of the main river is about 145 miles, of which the first 120 miles pass through very mountainous country covered with thick jungle, while the lower 25 miles pass through very flat low-lying land. There are four sets of rapids, *viz.*, Barkal (39′ fall), Utan Chatra (8′), Burra Harim (7′), and Demargiri (Assam) (30′). This report was considered by the Committee at their 2nd meeting and it was agreed that the Karnafuli river was entirely unsuitable for the supply of power for commercial purposes but that in order to dispose of the question finally and so prevent money being wasted in future surveys, it was desirable to have all the facts before them. Accordingly Mr. Grieve was asked to pursue his enquiries and to take a few discharge observations with a view to estimating the supply available and then to stop further work in connection with the survey. The 2nd report submitted by Mr. Grieve is not, however, an exhaustive one, though he has briefly dealt with most of the points requiring consideration in a hydro-electric survey. Of the 4 sets of rapids on the Karnafuli the Barkal site was selected as the most suitable for the supply of electrical power to Chittagong. The reasons given are (*a*) that the site will be the cheapest and most economical, (*b*) that it will give the greatest amount of power, (*c*) that it allows a large storage to be impounded which will give more than double the minimum discharge of the river in the dry season, (*d*) that it is the most accessible, and (*e*) that the geological formation admits of safe foundations.

With regard to the capacity of the proposed storage reservoir at this site he states:—

"Both the supply and bye-pass channels being controlled by steel gates will take off at a level of 15′ from the top of the dam, and this level would be the bottom of a storage reservoir 10′ deep. As the river slope above Barkal is very gentle, this depth will give a reservoir with a capacity of about 2,000 million cubic feet, which would increase the natural discharge by some 240 cusecs for three months in the dry season."

As regards the power obtainable from the proposed reservoir he says:—

"The total fall would be say 81′ and the minimum discharge from natural flow and stored water works out to 400 cusecs throughout the year and this in round numbers gives 2160 K. W's. continuous power. The plant is never likely to work continuously and it will be accurate enough to assume a load factor of only 33 per cent. On this assumption 6480 K. W's. would be available for power and a plant of that capacity would have to be installed. It would then only remain for this power to be transmitted to the districts requiring it, though of course the transmission cost would be very high."

This report and Mr. Grieve's proposals were considered by the Committee at their final meeting. The Committee are of the opinion that as the maximum demand at Dacca after ten years' working is 200 K. W's. only, it is improbable that Chittagong will ever require 6480 K. W's. Even if there was a market for such an amount of power at Chittagong it is doubtful if 6480 K. W.'s developed at Barkal can compete in price with a similar amount of power generated at Chittagong from oil or coal. It is not possible to make any definite statement without preparing comparative estimates, but it appears that the amount of power available is too small for the transmission distance and to pay for the costly works necessary for the project.

If there are any minerals within a few miles of the Barkal rapids and if the mines are worked, or if any chemical industry is started in the vicinity, the figures collected by Mr. Grieve will prove useful. His estimate of Rs. 25 lakhs for the whole scheme appears to be far too low.

The Committee desire to acknowledge the services of Mr. Grieve and commend the report to Government as it contains useful data which have been collected after careful investigation carried out in difficult country.

A. G. MAFLIN,
Secy. to the Committee.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 27th August 1924.

Summary.—The rainfall during the week was generally light to moderate. Transplantation of winter paddy is well advanced; but more rain is still needed for the operation in parts of West Bengal. Harvesting autumn paddy is nearly finished in East and North Bengal while the operation still continues in West Bengal. Cutting, steeping and washing of jute are proceeding satisfactorily. The prospects of standing crops are favourable except in parts of East Bengal where excessive rain and sudden rise of water have caused some damage. The average price of common rice for the Province has risen by about 0·20 per cent. as compared with that of the previous week.
